

**URGENT!**

# COME CLEAN ON CONNAUGHT

**Make Transparency a Priority**

Dear Minister: I have a right to know about a decision to abruptly close Connaught School, without replacement funding secured. I want to know:

- *Why can't we know what information was - or wasn't - given to Connaught's insurer?*
- *Why won't the SSBA clearly state who insures Connaught?*
- *Why is Regina Public Schools demanding \$2,500 to show correspondence on Connaught?*
- *Why has the Sask Assoc of Architects said the design RFQ to replace Connaught is "discouraging competition" and "inappropriate?"*
- *Why are building conservators barred from examining Connaught?*
- *Why are reports on the relocation school's condition kept in the dark?*
- *Where is the 'value for money' comparison for spending hundreds of thousands in early relocation costs, versus just tens of thousands to make Connaught safe in 2014-15?*

I have a right to know. You have a responsibility to act. This is a Ministry-financed project. It sets precedent for other projects. The Act requires schools be properly maintained and insured. The public expects fair, transparent, sensible use of our public purse.
